Company Profile

Subsidiary of VIQA Investment DMCC

Heavy Machinery Viqa

Heavy Machinery Viqa is a subsidiary of Viqa Investment DMCC Group of Companies operating in the United Arab Emirates for almost two decades and is currently taking on the fifth (5) generation in trading and service provision of recycling and mining solutions, machines, and equipment.

Heavy Machinery Viqa is the One-Stop Destination for solutions in Recycling, Waste Management, Mining & Quarrying, and the Trading of Machinery and Equipment from A to Z. We specialize in comprehensive recycling solutions for a wide range of materials, including construction and demolition waste, industrial by-products, aggregates, plastics, and more. Our expertise spans sand screening, waste processing, plastic shredding, rock crushing, material separation, and the production of RDF providing innovative and efficient solutions tailored to your needs.

- ✓ Technical Support & Consultation
- ✓ Custom Machinery Solutions
- ✓ On-Site Assessments & Project Planning
- ✓ Designing Complete Crusher & Recycling Plants
- ✓ Machine & Crusher Modifications

Laboratory Grinding Services

- ✓ High-precision mineral grinding services for industrial applications
- ✓ Testing & Certification services

Our Commitment to the environment

We believe in a green environment that is sustained by reducing waste and understanding the importance of recycling waste in the safest mythology.

The contributions we have made and continue to make towards recycling, quarrying, and trading have impacted the company's mission of having a cleaner environment, regaining the usage of waste materials, and bringing clean technology to the table.

We will strategize our operations and services to reach our mission to be the sustainability partner of choice and the leading UAE holding company to drive sustainability initiatives by 2035 while helping clients.
